Notes

¹ Greece's 2017/2018 peer review included a general monitoring point relating to a specific process to that would allow to take appropriate measures in case Greece is notified by another jurisdiction that such other jurisdiction has reason to believe that an error may have led to incorrect or incomplete information reporting by a Reporting Entity or that there is non-compliance of a Reporting Entity with respect to its obligation to file a CbC report. This monitoring point remains in place.

² No inconsistency with the terms of reference will be identified where a QCAA is not in effect with one or more jurisdictions of the Inclusive Framework that meet the confidentiality, consistency and appropriate use conditions, but this is due to circumstances that are not under the control of the reviewed jurisdiction. This may include, for example, where the other jurisdiction intends to exchange CbC reports using the MCAA but it does not have the Convention in effect for the relevant fiscal period, or where the other jurisdiction has declined to have a QCAA in effect with the reviewed jurisdiction.
