# Malta

Malta has met all aspects of the terms of reference (OECD, 2021[3]) (ToR) for the calendar year 2020 (year in review), and no recommendations are made.

Malta can legally issue four types of rulings within the scope of the transparency framework.

In practice, Malta issued rulings within the scope of the transparency framework as follows:

Type of ruling	Number of rulings
Past rulings	7
Future rulings in the period 1 April 2017 – 31 December 2017	4
Future rulings in the calendar year 2018	7
Future rulings in the calendar year 2019	15
Future rulings in the year in review	17

Peer input was received from one jurisdiction in respect of the exchanges of information on rulings received from Malta. The input was positive, noting that information was complete, in a correct format and received in a timely manner.

# A. The information gathering process (ToR I.A)

- 781. Malta can legally issue the following four types of rulings within the scope of the transparency framework: (i) cross-border unilateral APAs and any other cross-border unilateral tax rulings (such as an advance tax ruling) covering transfer pricing or the application of transfer pricing principles; (ii) rulings providing for unilateral downward adjustments; (iii) permanent establishment rulings; and (iv) related party conduit rulings.
- 782. For Malta, past rulings are any tax rulings within scope that are issued either: (i) on or after 1 January 2015 but before 1 April 2017; and (ii) on or after 1 January 2012 but before 1 January 2015, provided they were still in effect as at 1 January 2015. Future rulings are any tax rulings within scope that are issued on or after 1 April 2017.
- 783. In the prior years' peer review reports, it was determined that Malta's undertakings to identify past and future rulings and all potential exchange jurisdictions were sufficient to meet the minimum standard. In addition, it was determined that Malta's review and supervision mechanism was sufficient to meet the minimum standard. Malta's implementation remains unchanged, and therefore continues to meet the minimum standard.
- 784. Malta has met all of the ToR for the information gathering process and no recommendations are made.

## B. The exchange of information (ToR II.B)

785. Malta has international agreements permitting spontaneous exchange of information, including being a party to (i) the *Multilateral Convention on Mutual Administrative Assistance in Tax Matters: Amended by the 2010 Protocol* (OECD/Council of Europe, 2011<sub>[4]</sub>) ("the Convention"), (ii) Directive 2011/16/EU with all other EU Member States, and (iii) bilateral agreements in force with 77 jurisdictions.<sup>1</sup>

786. For the year in review, the timeliness of exchanges is as follows:

Future rulings	Number of exchanges	Delayed exchanges		
within the scope of the transparency framework	transmitted within three months of the information becoming available to the competent authority or immediately after legal impediments have been lifted	Number of exchanges transmitted later than three months of the information on rulings becoming available to the competent authority	Reasons for the delays	Any other comments
	23	3	Application of the EU DAC3 timelines.	N/A

Follow up requests received for exchange of	Number	Average time to provide response	Number of requests not answered
the ruling	0	N/A	N/A

787. Malta notes that two rulings that were issued in 2019 were not timely exchanged, because these were exchanges with EU Member States under the EU DAC3 timelines. Malta notes however that from March 2020, it has changed its procedures and all rulings within the scope of the Action 5 transparency framework will be exchanged within three months after the ruling becomes available to the competent authority.

- 788. In the prior years' peer review reports, it was determined that Malta's process for the completion and exchange of templates were sufficient to meet the minimum standard. With respect to past rulings, no further action was required. Malta's implementation in this regard remains unchanged and therefore continues to meet the minimum standard.
- 789. Malta has the necessary legal basis for spontaneous exchange of information, a process for completing the templates in a timely way and has completed all exchanges. Malta has met all of the ToR for the exchange of information process and no recommendations are made.

# C. Statistics (ToR IV)

790. The statistics for the year in review are as follows:

Category of ruling	Number of exchanges	Jurisdictions exchanged with
Cross-border unilateral APAs and any other cross-border unilateral tax rulings (such as an advance tax ruling) covering transfer pricing or the application of transfer pricing principles	2	De minimis rule applies
Cross-border rulings providing for a unilateral downward adjustment to the taxpayer's taxable profits that is not directly reflected in the taxpayer's financial / commercial accounts	0	N/A
Permanent establishment rulings	0	N/A
Related party conduit rulings	24	Australia, Chile, Curaçao, Cyprus, Czech Republic, Germany, Guernsey, Ireland, Israel, Netherlands, Panama, Poland, Portugal, Qatar, Slovak Republic, Sweden, Thailand, United Kingdom
IP regimes: total exchanges on taxpayers benefitting from the third category of IP assets, new entrants benefitting from grandfathered IP regimes; and taxpayers making use of the option to treat the nexus ratio as a rebuttable presumption	0	N/A
Total	26	

# D. Matters related to intellectual property regimes (ToR I.A.1.3)

- 791. Malta offers an intellectual property regime (IP regime)<sup>2</sup> that is subject to the transparency requirements under the Action 5 Report (OECD, 2015<sub>[1]</sub>). It states that the identification of the benefitting taxpayers will occur as follows:
  - **New entrants benefitting from the grandfathered IP regime**: as this is a new IP regime rather than a grandfathered IP regime, transparency on new entrants is not relevant.
  - **Third category of IP assets**: the regime provides benefits to the third category of IP assets. The process on the collection of information was described in the prior year peer review report. Malta confirms that for the year in review, there were no taxpayers benefitting from the third category of IP assets. As such, no exchanges needed to take place.
  - Taxpayers making use of the option to treat the nexus ratio as a rebuttable presumption: not applicable as the regime does not allow the nexus ratio to be treated as a rebuttable presumption.

# Summary of recommendations on implementation of the transparency framework

Aspect of implementation of the transparency framework that should be improved	Recommendation for improvement
	No recommendations are made.
