

# Indonesia

Indonesia has met all aspects of the terms of reference (OECD, 2021<sup>[1]</sup>) (ToR) for the calendar year 2022 (year in review), and no recommendations are made.

Indonesia can legally issue one type of rulings within the scope of the transparency framework.

In practice, Indonesia issued rulings within the scope of the transparency framework as follows:

Type of ruling	Number of rulings
Past rulings	0
Future rulings in the period 1 April 2016 – 31 December 2016	0
Future rulings in the calendar year 2017	0
Future rulings in the calendar year 2018	0
Future rulings in the calendar year 2019	1
Future rulings in the calendar year 2020	1
Future rulings in the calendar year 2021	2
Future rulings in the year in review	0

Peer input was received from one jurisdiction in respect of the exchanges of information on rulings received from Indonesia. The input was positive, noting that information was complete and in a correct format.<sup>1</sup>

## Information gathering process (ToR I.A)

590. Indonesia can legally issue one type of ruling within the scope of the transparency framework: (i) cross-border unilateral APAs and any other cross-border unilateral tax rulings (such as an advance tax ruling) covering transfer pricing or the application of transfer pricing principles.

591. For Indonesia, past rulings are any tax rulings within scope that are issued either: (i) on or after 1 January 2014 but before 1 April 2016; or (ii) on or after 1 January 2010 but before 1 January 2014, provided they were still in effect as at 1 January 2014. Future rulings are any tax rulings within scope that are issued on or after 1 April 2016.

592. In the prior years' peer review reports, it was determined that Indonesia's undertakings to identify past and future rulings and all potential exchange jurisdictions were sufficient to meet the minimum standard. In addition, it was determined that Indonesia's review and supervision mechanism was sufficient to meet the minimum standard. Indonesia's implementation remains unchanged, and therefore continues to meet the minimum standard.

593. Indonesia has met all of the ToR for the information gathering process and no recommendations are made.

## Exchange of information (ToR II.B)

594. Indonesia has the necessary domestic legal basis to exchange information spontaneously. Indonesia notes that there are no legal or practical impediments that prevent the spontaneous exchange of information on rulings as contemplated in the Action 5 minimum standard.

595. Indonesia has international agreements permitting spontaneous exchange of information, including: (i) the *Multilateral Convention on Mutual Administrative Assistance in Tax Matters: Amended by the 2010 Protocol* (OECD/Council of Europe, 2011<sup>[2]</sup>) ("the Convention") and (ii) bilateral agreements in force with 69 jurisdictions.<sup>2</sup>

596. During the year in review, no exchanges were required to take place and no data on the timeliness of exchanges is reported.

597. In the prior years' peer review reports, it was determined that Indonesia's process for the completion and exchange of templates were sufficient to meet the minimum standard. With respect to past rulings, no action was required. Indonesia's implementation in this regard remains unchanged and therefore continues to meet the minimum standard.

598. Indonesia has the necessary legal basis for spontaneous exchange of information, a process for completing the templates in a timely way and has completed all exchanges. Indonesia has met all of the ToR for the exchange of information process and no recommendations are made.

## Statistics (ToR IV.D)

599. As no rulings were issued, no statistics can be reported.

## Matters related to intellectual property regimes (ToR I.A.1.3)

600. Indonesia does not offer an intellectual property regime for which transparency requirements under the Action 5 Report (OECD, 2015<sup>[3]</sup>) were imposed.

## Summary of recommendations on implementation of the transparency framework

Aspect of implementation of the transparency framework that should be improved	Recommendation for improvement
	No recommendations are made.
