

Portugal

Portugal has met all aspects of the terms of reference (OECD, 2021^[1]) (ToR) for the calendar year 2022 (year in review), and no recommendations are made.

Portugal can legally issue two types of rulings within the scope of the transparency framework.

In practice, Portugal issued rulings within the scope of the transparency framework as follows:

Type of ruling	Number of rulings
Past rulings	24
Future rulings in the period 1 April 2016 – 31 December 2016	2
Future rulings in the calendar year 2017	11
Future rulings in the calendar year 2018	11
Future rulings in the calendar year 2019	6
Future rulings in the calendar year 2020	6
Future rulings in the calendar year 2021	7
Future rulings in the year in review	13

No peer input was received in respect of the exchanges of information on rulings received from Portugal.

Information gathering process (ToR I.A)

958. Portugal can legally issue the following two types of rulings within the scope of the transparency framework: (i) cross-border unilateral APAs and any other cross-border unilateral tax rulings (such as an advance tax ruling) covering transfer pricing or the application of transfer pricing principles; and (ii) permanent establishment rulings.

959. For Portugal, past rulings are any tax rulings within scope that are issued either: (i) on or after 1 January 2014 but before 1 April 2016; or (ii) on or after 1 January 2010 but before 1 January 2014, provided they were still in effect as at 1 January 2014. Future rulings are any tax rulings within scope that are issued on or after 1 April 2016.

960. In the prior years' peer review reports, it was determined that Portugal's undertakings to identify past and future rulings and all potential exchange jurisdictions were sufficient to meet the minimum standard. In addition, it was determined that Portugal's review and supervision mechanism was sufficient to meet the minimum standard. Portugal's implementation remains unchanged, and therefore continues to meet the minimum standard.

961. Portugal has met all of the ToR for the information gathering process and no recommendations are made.

Exchange of information (ToR II.B)

962. Portugal has the necessary domestic legal basis to exchange information spontaneously. Portugal notes that there are no legal or practical impediments that prevent the spontaneous exchange of information on rulings as contemplated in the Action 5 minimum standard.

963. Portugal has international agreements permitting spontaneous exchange of information, including: (i) the *Multilateral Convention on Mutual Administrative Assistance in Tax Matters: Amended by the 2010 Protocol* (OECD/Council of Europe, 2011^[2]) ("the Convention"), (ii) the Directive 2011/16/EU with all other European Union Member States and (iii) bilateral agreements in force with 79 jurisdictions.¹

964. For the year in review, the timeliness of exchanges is as follows:

Future rulings within the scope of the transparency framework	Number of exchanges transmitted within three months of the information becoming available to the competent authority or immediately after legal impediments have been lifted	Delayed exchanges		
		Number of exchanges transmitted later than three months of the information on rulings becoming available to the competent authority	Reasons for the delays	Any other comments
	30	0	N/A	N/A

Follow-up requests received for exchange of the ruling	Number	Average time to provide response	Number of requests not answered
	0	N/A	N/A

965. In the prior years' peer review reports, it was determined that Portugal's process for the completion and exchange of templates were sufficient to meet the minimum standard. With respect to past rulings, no further action was required. Portugal's implementation in this regard remains unchanged and therefore continues to meet the minimum standard.

966. Portugal has the necessary legal basis for spontaneous exchange of information, a process for completing the templates in a timely way and has completed all exchanges. Portugal has met all of the ToR for the exchange of information process and no recommendations are made.

Statistics (ToR IV.D)

967. The statistics for the year in review are as follows:

Category of ruling	Number of exchanges	Jurisdictions exchanged with
Cross-border unilateral APAs and any other cross-border unilateral tax rulings (such as an advance tax ruling) covering transfer pricing or the application of transfer pricing principles	29	Belgian, Canada, China (People's Republic of), Cyprus, France, Germany, India, Luxembourg, Netherlands, Poland, Romania, Spain, Sweden, Switzerland, United Kingdom, United States
Permanent establishment rulings	1	<i>De minimis</i> rule applies
IP regimes: total exchanges on taxpayers benefitting from the third category of IP assets, new entrants benefitting from grandfathered IP regimes; and taxpayers making use of the option to treat the nexus ratio as a rebuttable presumption	0	N/A
Total	30	

Matters related to intellectual property regimes (ToR I.A.1.3)

968. In the prior years' peer review reports, it was determined that Portugal's information gathering and exchange of information processes for matters related to intellectual property regimes² were sufficient to meet the minimum standard. Portugal's implementation in this regard remains unchanged and therefore continues to meet the minimum standard.

Summary of recommendations on implementation of the transparency framework

Aspect of implementation of the transparency framework that should be improved	Recommendation for improvement
	No recommendations are made.
