***Skills Matter: Further Results from the Survey of Adult Skills***  
**Tables of results**

## ANNEX A

## LIST OF TABLES AVAILABLE ON LINE

The following tables are available in electronic form only.

## Chapter 2 Adults' proficiency in key information-processing skills

<http://dx.doi.org/10.1787/888933366458>

WEB	Table A2.1	Percentage of adults scoring at each proficiency level in literacy
WEB	Table A2.2	Performance in the reading component assessment, by literacy proficiency level
WEB	Table A2.3	Mean literacy proficiency and distribution of literacy scores, by percentile
WEB	Table A2.4	Percentage of adults scoring at each proficiency level in numeracy
WEB	Table A2.5	Mean numeracy proficiency and distribution of numeracy scores, by percentile
WEB	Table A2.6	Percentage of adults scoring at each proficiency level in problem solving in technology-rich environments
WEB	Table A2.7	Correlation between literacy and numeracy proficiency
WEB	Table A2.8	Mean literacy proficiency, by level of proficiency in problem solving in technology-rich environments
WEB	Table A2.9	Mean numeracy proficiency, by level of proficiency in problem solving in technology-rich environments
WEB	Table A2.10	Mean literacy proficiency in the International Adult Literacy Survey (IALS), the Adult Literacy and Lifeskills Survey (ALL) and the Survey of Adults Skills (PIAAC)
WEB	Table A2.11	Mean numeracy proficiency in the Adult Literacy and Lifeskills Survey (ALL) and the Survey of Adults Skills (PIAAC)

## Chapter 3 The socio-demographic distribution of key information-processing skills

<http://dx.doi.org/10.1787/888933366463>

WEB	Table A3.1 (L)	Difference in literacy scores between contrast categories, by socio-demographic characteristics
WEB	Table A3.1 (N)	Difference in numeracy scores between contrast categories, by socio-demographic characteristics
WEB	Table A3.2 (L)	Mean literacy proficiency, by educational attainment, and score difference between high- and low-educated adults
WEB	Table A3.2 (N)	Mean numeracy proficiency, by educational attainment, and score difference between high- and low-educated adults
WEB	Table A3.3 (L)	Percentage of adults at each proficiency level in literacy, by educational attainment
WEB	Table A3.3 (N)	Percentage of adults at each proficiency level in numeracy, by educational attainment
WEB	Table A3.3 (P)	Percentage of adults at each proficiency level in problem solving in technology-rich environments, by educational attainment
WEB	Table A3.4 (L)	Mean literacy proficiency among 16-24 and 20-24 year-olds, by educational attainment
WEB	Table A3.4 (N)	Mean numeracy proficiency among 16-24 and 20-24 year-olds, by educational attainment
WEB	Table A3.5 (L)	Mean literacy proficiency, by age groups, and score difference between youngest and oldest adults
WEB	Table A3.5 (N)	Mean numeracy proficiency, by age groups, and score difference between youngest and oldest adults
WEB	Table A3.6 (L)	Relationship between age and literacy proficiency
WEB	Table A3.6 (N)	Relationship between age and numeracy proficiency
WEB	Table A3.6 (P)	Relationship between age and proficiency in problem solving in technology-rich environments proficiency
WEB	Table A3.7 (L)	Percentage of adults at each proficiency level in literacy, by age groups
WEB	Table A3.7 (N)	Percentage of adults at each proficiency level in numeracy, by age groups
WEB	Table A3.7 (P)	Percentage of adults at each proficiency level in problem solving in technology-rich environments, by age groups
WEB	Table A3.8 (L)	Relationship between literacy proficiency and problem solving in technology rich-environments, by age groups
WEB	Table A3.8 (N)	Relationship between numeracy proficiency and problem solving in technology rich-environments, by age groups
WEB	Table A3.9 (L)	Mean literacy proficiency, by gender, and score difference between men and women
WEB	Table A3.9 (N)	Mean numeracy proficiency, by gender, and score difference between men and women
WEB	Table A3.10 (L)	Mean literacy proficiency, by age and gender
WEB	Table A3.10 (N)	Mean numeracy proficiency, by age and gender
WEB	Table A3.11 (L)	Percentage of adults at each proficiency level in literacy, by gender
WEB	Table A3.11 (N)	Percentage of adults at each proficiency level in numeracy, by gender
WEB	Table A3.11 (P)	Percentage of adults at each proficiency level in problem solving in technology-rich environments, by gender
WEB	Table A3.12 (L)	Mean literacy proficiency, by immigrant and language background, and score difference between native- and foreign-born adults
WEB	Table A3.12 (N)	Mean numeracy proficiency, by immigrant and language background, and score difference between native- and foreign-born adults
WEB	Table A3.13 (L)	Percentage of adults at each proficiency level in literacy, by immigrant and language background
WEB	Table A3.13 (N)	Percentage of adults at each proficiency level in numeracy, by immigrant and language background
WEB	Table A3.13 (P)	Percentage of adults at each proficiency level in problem solving in technology-rich environments, by immigrant and language background
WEB	Table A3.14 (L)	Mean literacy proficiency and score difference, by parents' educational attainment
WEB	Table A3.14 (N)	Mean numeracy proficiency and score difference, by parents' educational attainment
WEB	Table A3.15 (L)	Percentage of adults at each proficiency level in literacy, by parents' educational attainment
WEB	Table A3.15 (N)	Percentage of adults at each proficiency level in numeracy, by parents' educational attainment
WEB	Table A3.15 (P)	Percentage of adults at each proficiency level in problem solving in technology-rich environments, by parents' educational attainment
WEB	Table A3.16	Percentage of adults who score at or below Level 1 in literacy and/or numeracy
WEB	Table A3.17	Percentage of adults who score at or below Level 1 in literacy and/or numeracy, by socio-demographic characteristics
WEB	Table A3.18	Likelihood of adults scoring at or below Level 1 in literacy and/or numeracy, by socio-demographic characteristics (average marginal probabilities)

## Chapter 4 How skills are used in the workplace

<http://dx.doi.org/10.1787/888933366479>

WEB	Table A4.1	Average use of information-processing skills at work
WEB	Table A4.2	Average use of information-processing skills in everyday life
WEB	Table A4.3	Adjusted and unadjusted labour productivity and average reading skills use at work
WEB	Table A4.4	Skills use at work and skills proficiency of the working population
WEB	Table A4.5 (L)	Distribution of skills use, by literacy proficiency
WEB	Table A4.5 (N)	Distribution of skills use, by numeracy proficiency
WEB	Table A4.5 (P)	Distribution of skills use, by proficiency in problem solving in technology-rich environments
WEB	Table A4.6	Variation in information-processing skills use at work
WEB	Table A4.7a	Information-processing skills used at work, by gender
WEB	Table A4.7b	Gender differences in the use of information-processing skills at work (adjusted)
WEB	Table A4.8a	Information-processing skills used at work, by age group
WEB	Table A4.8b	Age-related differences in the use of information-processing skills at work (adjusted)
WEB	Table A4.9a	Information-processing skills used at work, by educational attainment
WEB	Table A4.9b	Education-related differences in the use of information-processing skills at work (adjusted)
WEB	Table A4.10a	Information-processing skills used at work, by sector
WEB	Table A4.10b	Sector-related differences in the use of information-processing skills at work (adjusted)
WEB	Table A4.11	Information-processing skills used at work, by firm size
WEB	Table A4.12a	Information-processing skills used at work, by contract type
WEB	Table A4.12b	Contract-related differences in the use of information-processing skills at work (adjusted)
WEB	Table A4.13	Mean skills use, by High-Performance Work Practices
WEB	Table A4.14	High-Performance Work Practices, by type of practice

## Chapter 5 The outcomes of investment in skills

<http://dx.doi.org/10.1787/888933366489>

WEB	Table A5.1 (L)	Workers' mean proficiency in literacy, by labour force status
WEB	Table A5.1 (N)	Workers' mean proficiency in numeracy, by labour force status
WEB	Table A5.1 (P)	Workers' mean proficiency in problem solving in technology-rich environments, by labour force status
WEB	Table A5.2 (L)	Effect of education and literacy proficiency on the likelihood of being employed
WEB	Table A5.2 (N)	Effect of education and numeracy proficiency on the likelihood of being employed
WEB	Table A5.3 (L)	Distribution of wages among employees, by level of literacy proficiency
WEB	Table A5.3 (N)	Distribution of wages among employees, by level of numeracy proficiency
WEB	Table A5.4	Effect on wages of education, literacy proficiency and reading use at work
WEB	Table A5.5	Contribution of education, literacy and numeracy to the variation in hourly wages
WEB	Table A5.6a	Contribution of education, literacy and numeracy to the variation in hourly wages, by age group
WEB	Table A5.6b	Contribution of education, literacy and numeracy to the variation in hourly wages, by gender
WEB	Table A5.7	Qualification, literacy and field-of-study mismatch
WEB	Table A5.8a	Overqualified workers who are mismatched by literacy or field of study
WEB	Table A5.8b	Field-of-study mismatched workers who are mismatched by qualification or literacy
WEB	Table A5.9	Overqualification, by individual and job characteristics
WEB	Table A5.10	Overskilling in literacy, by individual and job characteristics
WEB	Table A5.11	Field-of-study mismatch, by individual and job characteristics
WEB	Table A5.12	Effect on wages of qualification, literacy and field-of-study mismatch
WEB	Table A5.13 (L)	Percentage of adults reporting positive social outcomes, by literacy proficiency
WEB	Table A5.13 (N)	Percentage of adults reporting positive social outcomes, by numeracy proficiency
WEB	Table A5.14 (L)	Marginal effects of literacy proficiency on adults reporting positive social outcomes
WEB	Table A5.14 (N)	Marginal effects of numeracy proficiency on adults reporting positive social outcomes
WEB	Table A5.15	Share of total current expenditure on health funded by the private sector (2012)
