Greece

Greece has met all aspects of the terms of reference (OECD, 2017_[3]) (ToR) for the calendar year 2018 (year in review) and no recommendations are made.

In the prior year report, Greece did not receive any recommendations.

Greece can legally issue one type of ruling within the scope of the transparency framework. In practice, Greece issued rulings within the scope of the transparency framework as follows:

- One past ruling;
- For the period 1 April 2016 31 December 2016: no future rulings;
- For the calendar year 2017: no future rulings, and
- For the year in review: two future rulings.

No peer input was received in respect of the exchanges of information on rulings received from Greece.

Introduction

This peer review covers Greece's implementation of the BEPS Action 5 transparency framework for the year 2018. The report has four parts, each relating to a key part of the ToR. Each part is discussed in turn. A summary of recommendations is included at the end of this report.

A. The information gathering process

Greece can legally issue the following type of ruling within the scope of the transparency framework: cross-border unilateral APAs and any other cross-border unilateral tax rulings (such as an advance tax ruling) covering transfer pricing or the application of transfer pricing principles.

Past rulings (ToR I.4.1.1, I.4.1.2, I.4.2.1, I.4.2.2)

For Greece, past rulings are any tax rulings within scope that are issued either: (i) on or after 1 January 2014 but before 1 April 2016; or (ii) on or after 1 January 2010 but before 1 January 2014, provided they were still in effect as at 1 January 2014.

In the prior years' peer review reports, it was determined that Greece's undertakings to identify past rulings and all potential exchange jurisdictions were sufficient to meet the minimum standard. Greece's implementation in this regard remains unchanged, and therefore continues to meet the minimum standard.

Future rulings (ToR I.4.1.1, I.4.1.2, I.4.2.1)

For Greece, future rulings are any tax rulings within scope that are issued on or after 1 April 2016.

In the prior years' peer review reports, it was determined that Greece's undertakings to identify future rulings and all potential exchange jurisdictions were sufficient to meet the minimum standard. Greece's implementation in this regard remains unchanged, and therefore continues to meet the minimum standard.

Review and supervision (ToR I.4.3)

Conclusion on section A

Greece has met all of the ToR for the information gathering process and no recommendations are made.

B. The exchange of information

Legal basis for spontaneous exchange of information (ToR II.5.1, II.5.2)

Greece has the necessary domestic legal basis to exchange information spontaneously. Greece notes that there are no legal or practical impediments that prevent the spontaneous exchange of information on rulings as contemplated in the Action 5 minimum standard.

Greece has international agreements permitting spontaneous exchange of information, including being a party to the (i) *Multilateral Convention on Mutual Administrative Assistance in Tax Matters: Amended by the 2010 Protocol* (OECD/Council of Europe, 2011_[4]) ("the Convention"), (ii) the Directive 2011/16/EU with all other European Union Member States and (iii) double tax agreements in force with 57 jurisdictions.¹

Completion and exchange of templates (ToR II.5.3, II.5.4, II.5.5, II.5.6, II.5.7)

In the prior year peer review report, it was determined that Greece's process for the completion and exchange of templates were sufficient to meet the minimum standard. Greece's implementation in this regard remains unchanged and therefore continues to meet the minimum standard.

For the year in review, the timeliness of exchanges is as follows:

| Past rulings in the scope of the transparency framework | Number of exchanges transmitted by 31 December 2018 | Delayed exchanges | | |
|--|---|---|------------------------|--------------------|
| | | Number of exchanges not transmitted by 31 December 2018 | Reasons for the delays | Any other comments |
| | 0 | 0 | N/A | N/A |
| Future rulings in the scope of the transparency framework Number of exchanges transmitted within three months of the information becoming available to the competent authority or immediately after legal impediments have been lifted S | Number of exchanges | Delayed exchanges | | |
| | Number of exchanges transmitted later than three months of the information on rulings becoming available to the competent authority | Reasons for the delays | Any other comments | |
| | 5 | 0 | N/A | N/A |
| Total | 5 | 0 | <u> </u> | |

| Follow up requests received for exchange of | Number | Average time to provide response | Number of requests not answered |
|---|--------|----------------------------------|---------------------------------|
| the ruling | 0 | N/A | 0 |

Conclusion on section B

Greece has the necessary legal basis for spontaneous exchange of information, a process for completing the templates in a timely way and has completed all exchanges. Greece has met all of the ToR for the exchange of information process and no recommendations are made.

C. Statistics (ToR IV)

The statistics for the year in review are as follows:

| Category of ruling | Number of exchanges | Jurisdictions exchanged with |
|---|-------------------------|------------------------------|
| Ruling related to a preferential regime | N/A | N/A |
| Cross-border unilateral advance pricing agreements (APAs) and any other cross-border unilateral tax rulings (such as an advance tax ruling) covering transfer pricing or the application of transfer pricing principles | De minimis rule applies | N/A |
| Cross-border rulings providing for a unilateral downward adjustment to the taxpayer's taxable profits that is not directly reflected in the taxpayer's financial / commercial accounts | N/A | N/A |
| Permanent establishment rulings | N/A | N/A |
| Related party conduit rulings | N/A | N/A |
| De minimis rule | 5 | N/A |
| IP regimes: total exchanges on taxpayers benefitting from the third | N/A | N/A |

| category of IP assets, new entrants benefitting from grandfathered IP regimes; and taxpayers making use of the option to treat the nexus ratio as a rebuttable presumption | | |
|--|---|--|
| Total | 5 | |

D. Matters related to intellectual property regimes (ToR I.4.1.3)

Greece offers an intellectual property regime (IP regime)² that is not subject to the transparency requirements under the Action 5 Report (OECD, 2015_[5]), because:

- **New entrants benefitting from the grandfathered IP regime**: the regime is currently under review by the FHTP.
- Third category of IP assets: not applicable as the regime does not allow the third category of IP assets to qualify for the benefits.
- Taxpayers making the use of the option to treat the nexus ratio as a rebuttable presumption: not applicable the regime does not allow the nexus ratio to be treated as a rebuttable presumption.

Summary of recommendations on implementation of the transparency framework

| Aspect of implementation of the transparency framework that should be improved | Recommendation for improvement | |
|--|--------------------------------|--|
| | No recommendations are made. | |
