Notes

¹ New Zealand's 2017/2018 peer review included a monitoring point referring to the definition of a "large multinational group" in its legislation does which not include the "deemed listing provision" as required under the terms of reference. However, New Zealand notes that the financial reporting requirements in New Zealand apply to large entities (including companies, partnerships and limited partnerships) regardless of whether they are listed on a stock exchange. A "large entity" is defined in the Financial Reporting Act 2013 as an entity that earns over NZD 30m of consolidated revenues (which is much lower than EUR 750m) or that have over NZD 60m of consolidated assets in the previous two years. New Zealand also confirms that in the very unlikely event that an entity did not prepare consolidated financial statements and would be considered as an "Ultimate Parent Entity" further to the "deemed listing provision" (as per paragraph 18.i. of the terms of reference), the existing powers of Section 17 of the Tax Administration Act 1994 will be relied on to request the information. This monitoring point remains in place.

² As New Zealand continues to rely on existing powers in the Tax Administration Act 1994 until legislation is finalised, and because the effectiveness of this system still relies on the fact that the Inland Revenue correctly identifies all New Zealand resident entities that are the Ultimate Parent Entity of an MNE Group within the scope of CbC Reporting and issues a notification, the monitoring point in the 2017/2018 peer review relating to New Zealand's framework remains in place.

³ New Zealand's 2017/2018 peer review included a general monitoring point relating to a specific process that would allow New Zealand to take appropriate measures in case New Zealand is notified by another jurisdiction that such other jurisdiction has reason to believe that an error may have led to incorrect or incomplete information reporting by a Reporting Entity or that there is non-compliance of a Reporting Entity with respect to its obligation to file a CbC report. This monitoring point remains in place.
